

User Stories

Basic User

Entry Level

As a user that is learning basic java and I would like to use the app to start learning java and be able to practice my skills in an interactive way.

K-12 School Teacher

As a school teacher I would like to teach my students Java with the help of the app so that my students can learn Java in a fun and engaging way.

Programmer

Mid to expert level

As a user that know multiple programming languages already, I would use the app so that I have a way to learn Java syntax and have a reference for the syntax should I need it.

Bootcamper

I am taking a crash course on Java and I would use this app to be able to help me up with my coding bootcamp.

Self Taught

Beginner - Expert Level

As a self-taught user, I would like this app give me a good starting point to learn Java so that I can begin writing my own programs without the need of educational institution.

Curious Person

Entry Level

As a user that is trying to see if I like coding, I would want a very easy introduction into Java so that I am not too overwhelmed by this new skill that I am considering to learn.
